The Way We Work Has Changed

Do you work the same way you did 10 years ago? 5? Harvard Business Review surveyed business leaders worldwide about how collaboration is changing within their organizations.

72%

say “effective team communication” has become more important over the past two years.

54%

are investing in easier-to-use collaboration solutions.

64%

report that collaboration with external parties has increased in importance.

Collaboration

Working together, people can achieve extraordinary things.
Cisco empowers collaboration and innovation everywhere.

we focus
intensely
on customers

we respect
and care for
each other

we win
together

we make
innovation
happen

we always do the
right thing

we
change the
world
