# I. The Yield Uganda Impact Investment Fund Model

### III. Our Portfolio (4 Sample Case Studies) – Investments.

- ***Raintree Farms*** is an agri-ceutical company whose business operation is centered around the growing (through out growers) and processing of moringa, in order to produce premium, organically certified moringa leaf powder and moringa oil. The products of which are sold to the nutritional, beauty and health markets, both here in Uganda and internationally.
- **Committed: USD 1 Million.**

### III. Case Studies) – Impact Investments.

- ***Chemiphar*** is an internationally accredited analytical laboratory located on the outskirts of Kampala, in Kansanga, whose core business is to provide testing and inspection services to SME businesses operating in food and beverages, agro-products, environment, pharmaceutical and cosmetics as well as agricultural seeds.
- **Committed: USD 0.35 Million.**

## III. Case Studies – Impact Investments.

- **CECOFA** is a primary processor of coffee. The company collects dried coffee beans (Kiboko cherries) from its network of approximately over 3,600 smallholder farmers organized through a co-operative structure. The company provides market access for farmer members by purchasing, aggregating and collectively finding a market through international coffee traders.
- **Committed: USD 1.36 Million.**

## III. Case Studies – Impact Investments.

- ***Sesaco Limited*** is an agro-processing company, processing and manufacturing soy based products. The business is currently located at Kyengera trading center, 9 kilometers from Kampala city center, a prime location providing accessibility to suppliers and markets. Sesaco's flagship products are soy cup (a decaffeinated instant beverage), soy millet flour and soy maize flour.
- **Committed: USD 0.45 Million.**

## Sample Investments – Egg Pasteurization and processing.

**Main cold room**

**Pasteurizer**
