

# Heard in Strasbourg today...

Consult'in France (professional association of consulting firms) offers the audience to take part in the debate on the transformation of companies.

*What should we expect from companies?*

➡ *How to be a responsible company?*

3 **best practices** you shared with our consultants:

1. Implement a smarter workplace for its employees: the Flex Office Garden
2. Overcome intermediaries in the cocoa supply chain to create shared value with small producers locally & empower them
3. Go beyond legislation by sub-contracting 100% of the supply to a local ESAT (company with disabled employees)

Thank you & stay tuned! We'll share the collective output shortly after the World Forum.
