Time is on your side! The World Forum for a Responsible Economy is coming back on 26 and 27 November 2024 at the Cité des Échanges in Marcq-en-Barœul!

What if time wasn't just an answer, but THE answer? This year, the theme for the 18th edition of the World Forum for a Responsible Economy will be time. This year's edition will focus on taking back control of time: the time we have before us, the time yet to come, and the time it takes to design, develop and ramp up our projects.

We invite you to join us as we dare to be different, reflect on the past to chart a brighter future, adapt to new challenges and create a culture of excellence. Participants will leave the event having gained concrete insights thanks to the experiences and best practices shared by committed stakeholders. As transformation leaders in our respective organisations and communities, we each have the answer inside of us.

We must not wait for our colleagues, managers, clients or suppliers to do it for us. We each must take back control of time and use it wisely to meet our goals.

HIGHLIGHTS OF THE PROGRAMME:

- Inspiration: face-to-face interactions with high-level, inspiring speakers sharing about their successful partnerships and testimonials from stakeholders who work "in the field" each day.
- Collaboration: group brainstorming sessions, debates, thematic workshops, serious games to create new synergies and discussions on current and future issues.
- Meetings: networking lunches, stands from high-impact companies, opportunities to discuss and network.

This year also marks the 30th anniversary of the Responsible Economy Awards (*Trophées de l'Économie Responsable*). You will be able to learn about the people who contribute to improving environmental, social and economic performance each day.

See you on 26 and 27 November for the 18th edition of the World Forum for a Responsible Economy at the Cité des Échanges in Marcq-en-Barœul!
